

Welcome to Room 108 !

- Class Mission

- Our mission is to make daily progress on academic core skills - allowing each student to meet his or her personal goals and acquire skills which maximize their potential.

- Academic approach

- Use of visuals to support language learning
- Emphasis on language growth and its relationship to success in all core subjects
- Focus on the role of 1 to 1 correspondence in the understanding of higher math
- Stress the importance of repetition/ practice to strengthen recall
- Promote the generalization of skills across diverse environments

- Our classroom

- Frequent use of timers encourages self management of students through the strengthening of delayed gratification. We use the “Time Timer” app which can be downloaded from the google play store.

- Visual schedules help students organize their time and allow them to mentally prepare for upcoming activities
- “First/ Then” schedule use offers a sequence of an activity paired with an incentive.
- Sensory Breaks: sensory swing; trampoline; calisthenic exercises; auditory/ visual stimulation
- AAC devices and Core Boards are used in conjunction with the speech language pathologist when required to assist in bridging gaps in expressive communication.
- We have 2 dedicated and caring paraprofessionals in our classroom - Mr. Baker and Ms. Schwartz (Ms. Emma) who greatly assist in helping our students meet their goals as they navigate the school day.

***Please mark belongings with at least the student’s initials whenever possible - particularly items such as hats, gloves and jackets.**

***We have afternoon snack time each day. If your student has a favorite snack you’d like to send- please mark the item as a snack.**
